

Certified Sustainability Reporting Specialist+ (CSRS+)

The CSRS+ Certification is designed for professionals with a basic understanding of sustainability management who wish to strengthen their competencies and advance their careers in sustainability. Participants will develop capabilities in the following areas:

- 1) Assessing corporate sustainability strengths and weaknesses
- 2) Analyzing, communicating and reporting on sustainability challenges and solutions
- 3) Managing sustainability risks and opportunities across organizational functions
- 4) Developing Corporate Social Responsibility (CSR) policies and standards

Since 2007, the CSRS certification has been completed by nearly 3,800 professionals from across Southeast Asia and Bangladesh.

CSRS+ Examination

The CSRS+ (Certified Sustainability Reporting Specialist+) Examination is a leading professional assessment designed to promote and strengthen sustainability competencies. It provides a recognized benchmark for sustainability knowledge and skills, supporting professionals from the business, government, and non-profit sectors in advancing best practices in sustainability management.

ICSP, in collaboration with NCCR, is now offering an alternative pathway to the CSRS+ Examination for individuals who possess relevant sustainability knowledge, skills, and professional experience but have not attended the specific training programs conducted by NCCR.

We recognize that professionals develop their expertise through diverse learning and career pathways, and this initiative provides an opportunity for qualified practitioners to demonstrate their competence through the CSRS+ certification process.

Eligibility

The CSRS+ Examination is open for anyone with an interest in CSRS+ who has

1. Attended GRI Training and gained a Certificate of Completion from GRI
2. Paid the examination fee of USD 300
3. Completed the CSRS+ (1) Online Exam and (2) Assignment submission.

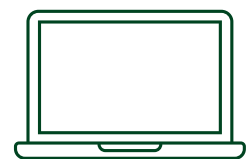

Assessment & Grade

1. Training Attendance: 20% (proof certificate of completion from GRI)
2. Online Exam: 40% (Score at least 60)
3. Assignment: 40%

Total Score: 1+2+3

Passing Grade

70

CSRS+ Online Exam:
Date of exam by request

The assignment is asked
to be completed within
2 week after online exam

Exam & Certification
delivered by the Institute
of Certified Sustainability
Practitioners (ICSP)

Online Exam

1. The exam is an on-line, open-cam and close-book exam.
2. The exam is in multiple choice format (100 questions for 120 minutes).
3. The questions will be related to the GRI Standards and sustainability at large.

Tryout

You can take an online tryout before the online exam by request.

Assignment

The assignment is a Case Study Assignment, where a published GRI Standards formatted report is checked and evaluated against the specific GRI standards detailed in that report.

Guidelines for Case Study:

1. Read through entire GRI Standards formatted sustainability report you choose and be familiar with the reporting structure.
2. Please fill out the assignment template with your assessment as to completeness of the report, comments and recommendations. Completeness means that you have to check all disclosures (general and specific) as reported in the GRI Index in the report you choose.
3. Your comments and recommendations indicate the content quality of the report for all of the disclosures and indicate what should be the appropriate level of disclosure (applied or NOT applied).
4. Do not hesitate to contact the co- facilitator if in doubt or if you require some information regarding the case study assignment.
